NUTS!

NUTS!: The Battle of the Bulge is a card game for two, three, or four players. Each player has a hand of cards, from which he may play cards each turn, and a draw deck, from which he may bring new cards into his hand. The cards include combat units, events, and significant pieces of terrain. Combat units are rated for Infantry, Armor, and Artillery combat strengths, leg or mechanized movement, and cohesion. Events are the situations from the actual battle. Terrain cards represent the significant geography of the battle (e.g. Bastogne, Meuse River, and St. Vith) that was used to speed or slow the Germans attack.

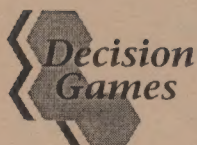

NUTS! comes in two 150-card sets (North & South). Each set is complete and can be played on its own, or the two sets can be played together. Each set sells for
